Y and E

Yeshua and the Entourage were a touring act about 2,000 yrs ago

They were sponsored by many wineries and brothels

Many got down and grooved w/them

Cops were always a hassle - They wound up murdering half of the act

The rest went solo

But it wasn't like Y and E

Yay-Shoo-Wah

His name was Yay-Shoo-Wah

Maybe if you addressed him by his name, he'd look into your requests

He's not ignoring you

You're just not talking to him

You don't go to work and do everyone else's assignments as well, do you?

Opening someone else's mail is frowned upon in some circles
